

## Design Tips

### DESIGN TIPS

At Home Outlet we realize that being your own designer has its own challenges. At the same time we realize beauty is in the eye of the beholder. That is why we have come up with some common things that we feel contribute to the overall beauty of your home when selecting window treatments and other decorating goods.

- Private Label : When you consider private label brands, make sure that you examine a sample of the product and pay attention to the details of the components. Doing your research can help you save a lot of money by purchasing from a company that does not have the high marketing expenses to build a brand. Home Outlet has found manufacturers who pass the rigorous standards that we set in order to be qualified as suppliers. Some even are leading manufacturers of quality name brand products but have private label agreements with Home Outlet. The private label products allow you to meet your design goals without over paying for these high quality items.

- Different products, similar look : Meeting your design needs may be approachable in multiple ways. Some products offer similar looks but are composed of different materials. Each has certain characteristics that will add to any room.

- Colour : The colour of any interior decor product is always very essential in complimenting other elements in the room. By viewing swatches and examining photos you will be able to find a combination that will be successful for your home.

- Sliding Glass door/ Patio doors/ French doors : This poses a design issue in areas where you may have a tendency to ignore this opening. Our treatments can turn a typical trouble spot into an accent. In this case, you should consider an exact measurement (outside mount) that will include Hold Down brackets. By doing so you will add a very exciting element that will stand out in areas like kitchens and family rooms. Consider particularly ROLLER BLINDS or PANEL GLIDES for sliding and patio doors.
