> ALUMINIUM BLINDS

- 25m Slat Aluminium Blinds

We strive to bring you the best made venetian blinds. We take our jobs very seriously. We know that you are making a large investment in blinds that you will enjoy for years to come. Rest assured that well made venetian blinds like those from Home Outlet will add value to your home - making venetian blinds shopping a practical decorating expense.

Home Outlet's entire range of venetian blinds (except Aluminium blinds) feature **PRIVACY STYLE SLATS** where slats do not have the standard punch holes. Instead, small notches on the edge of each slat hold them in place providing **tighter closure to seal out light**. Slats can also easily be removed for cleaning. Other blinds shops offer this new

technology as an upgrade for a hefty premium but we offer this FREE OF CHARGE.

We have 10,000 venetian blinds instock and ready to go. Each venetian blinds range has 26 standard sizes. If your window opening does not suit a standard size, venetian blinds can easily be trimmed in width and adjusted in drop to fit any opening. Our venetian blinds allow you to receive all the benefits of custom made venetian blinds but without the cost and delay. Why would you shop anywhere else?
